GENERAL RULES

1. Flowers shall be shown in containers as supplied by the Society (except competitors crossing the border, they may use their own), and except in basket, bowl and vase classes exhibitors shall provide their own containers. The Society will not be responsible for loss or damage to any container.
2. Exhibitors MUST show the name of every displayed exhibit on the entry tag, including the basket, bowl and vase classes.
3. Exhibits must have the Classification part of the entry tag completed. If help is needed, see a Senior Dahlia Judge.
4. All blooms exhibited must have been grown by the exhibitor.
5. Exhibitors may make as many entries as they desire in any class, provided the entries are of different varieties.
6. Points will be awarded in all classes except seedlings.
7. Judges may withhold awards when entries are deemed to be unworthy. Decisions of the judges shall be considered final. Judges must disqualify themselves from judging or influencing the judging in any classes where they have an interest. Complaints must be brought forward within 1 hour of judging completion.
8. To be eligible for a higher award, an exhibit must have won a first in its class. If an exhibit has won in class, and it was the only entry in that class, then it must receive a "Best of Type" ribbon (where applicable - Section 1-10) and also a Section Champ ribbon.
9. Best Dahlia in Show will be selected from the best single entry in Sections 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 27, 29, 31, 33, 35. and 37. Best Triple in Show will be selected from the best triple entry in Sections 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, and 38.

10. Entries placed in the wrong class as to colour or type may be properly placed and classified by the Judges Chair or a Senior Judge, but this must be done before judging of the section begins.
11. A vase is defined as a container having a diameter at the mouth less than the measure of its height.
12. A bowl is defined as a container having a diameter at the mouth at least equal to, but usually greater than, its height.
13. A basket is defined as a decorative container with a fixed handle.
14. Where the words "any foliage" appear in connection with a section or class, it signifies that foliage other than dahlia self-foliage may be used. Foliage may be used to enhance the decorative effect. Statice, gypsophila or other minutely flowered plants (sometimes referred to as filler) may be considered as foliage.
15. CLASSIFICATION
 - All entries are to be classified in accordance with the latest ADS Classification and Handbook of Dahlias in which it appears. Use the Pacific Northwest Supplemental Classification Listing (page 106 of the 2025 ADS Classification and Handbook) where applicable.
 - Classification includes all of the following cultivar information:

Name	Type	Size	Colour
------	------	------	--------
 - Classification information must be provided on the entry tags. The Exhibitor must know the name of the cultivar or if it is a new cultivar not yet named, provide a code number.

The Classification Sheet provided at the Show for unclassified cultivars is expected to be filled out prior to the Show or the day following, and then handed to the Show Secretary.

16. EXHIBITOR DIVISIONS

OPEN Experienced exhibitors, who have been consistent winners of head table and/or special awards during prior show seasons, are required to enter in this division. Exhibitors who have not consistently won head table and/or special awards during the immediate past three show seasons are encouraged to return to the Amateur Division, Entry Tags: **WHITE**

AMATEUR This division is for knowledgeable exhibitors who show dahlias for fun and experience. Exhibitors in this division are encouraged to remain until they consistently win head table and/or special awards for three consecutive show seasons, Entry Tags: **YELLOW**

NOVICE An exhibitor who is inexperienced in the showing of dahlias, and who may remain in this division for up to ten (10) ADS dahlia shows regardless of winnings. They will end the show season in the same exhibitor category as they started, instead of moving up mid-season, Entry Tags: **PINK**

JUNIOR A person who is 16 years of age or under, Entry Tags: **BLUE**

SPECIAL CLASSES Open to all Exhibitors, Entry Tags: **WHITE**

Exhibitors may elect to exhibit in a higher category, but then must place all their exhibits in those sections / classes. If two exhibitors are showing flowers grown in the same garden, then they both must show in the exhibitor category of the highest exhibitor (exception is Juniors will always show in Junior category).

17. **MAKING ENTRIES:** Exhibitors must use the appropriate entry tags available from the Show Secretary, or at the show from someone at the head table. Tags must be filled out completely and displayed with each exhibit.
18. **UNDISSEMINATED CULTIVARS:** These may be entered against classified cultivars in accordance with the 2025 ADS Classification and Handbook of Dahlias requirements (see page 12).

19. UN-CLASSIFIED ENTRIES: Any Senior Judge may classify blooms that are named and coded as to size, colour and type by initialing the entry's Show Tag. This also includes any seedlings with a numeric prefix followed by a name. But any entry with a wholly numeric identification name can be placed on an exhibit table without being signed off by a Senior Judge.
20. CONTAINERS: Exhibits should be staged only in containers supplied by the Society (Exception: members' own matching vases may be used). Bowls, baskets and materials are to be supplied by the exhibitor (see definitions). Also our U.S. exhibitors as previous.
21. FILLER: The filler for vases will be supplied.
22. FOLIAGE: In accordance with the ADS rule, the first pair of leaves must be attached and shown above the filler.

The main objective of dahlia baskets is to exhibit dahlias as a mass horticultural display of individual blooms, distinctly arranged for showing the quality of the dahlias. Judging is focused on the dahlia blooms as you would in the rest of the horticultural sections. Therefore, the quality of the blooms, staging, uniformity, and the other aspects of a bloom evaluation are key. The remaining components are secondary and should enhance the entry. Use the most current American Dahlia Society Classification and Handbook of Dahlias as your reference.

Characteristics of blooms of the same variety should be uniform and size relation between all blooms as if in a size class i.e. B or Medium basket, blooms should have a preferred similar size. Uniform in age of blooms as well.

Vases and Bowl definitions can be found under General Rules at the beginning of the Catalogue.

The overall effect including colour harmony (more than 1 colour used), bloom positions, symmetry, shape, spacing, condition of all material used in the entry, condition of the basket, condition of the natural filling material, the neatness in concealing the staging material and preventing see-through the back of the exhibit. Front to back balance. Artificial supports are not allowed.

No flowers or berries are allowed in baskets. This will lead to disqualification.

SECTION 64: BOWLS AND VASES OF DAHLIAS

Class 171	Bowl - Small (BB) sizes
Class 172	Bowl - Blooms 2"- 4" diameter
Class 173	Bowl - Blooms under 2" diameter

ARRANGEMENT SCORECARD

Scale of Points

- 40 POINTS..... Design
- 30 POINTS..... Cultural Condition
- 20 POINTS..... Theme
- 10 POINTS..... Distinction

ENTRY CRITERIA

- 1. Size of entries must be limited to a maximum of 24 inches square, unless otherwise stated by the individual club.
- 2. Artificial plant material is NOT allowed.
- 3. No mechanical devices are allowed that require a plug-in.
- 4. Plant material need not be grown by the exhibitor but all exhibits must be arranged by the exhibitor.
- 5. Accessories should be kept to a minimum.
- 6. Dahlias must dominate, although other flowers may be used.

EXPLANATION OF POINT SCALE FOR ARRANGEMENTS

Design 40 Points

Points to consider:

- The arrangement should have good proportion, balance, symmetry, rhythm, a line to follow or a flowing quality. Some examples are: Crescent, Mass, Triangle, Line and Hogarth Curve. (See diagrams on next page)
- The size of the flowers should be in proportion to the foliage and container. The container should not be the dominant focus.
- There should be a pleasing use of color and contrasts.
- The design should be stable and not appear to be falling over.
- The design should have depth so as not to appear flat or two dimensional.

Cultural Condition 30 Points

Points to consider:

- The blooms should be in good condition, but do not have to meet exhibition standards for form or color. Immature blooms and buds may be used.
- Foliage and other plant material used should be in good condition and have good substance.
- NO artificial plant material may be used in the arrangement.

Theme Interpretation 20 Points

Points to consider:

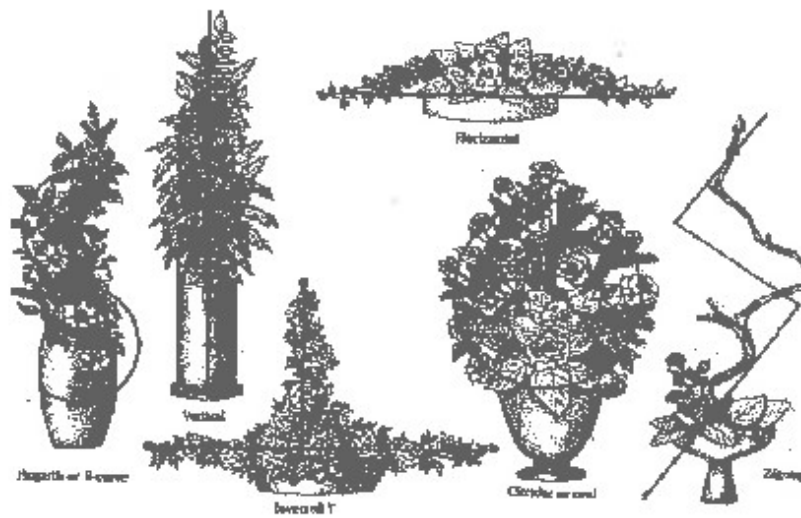

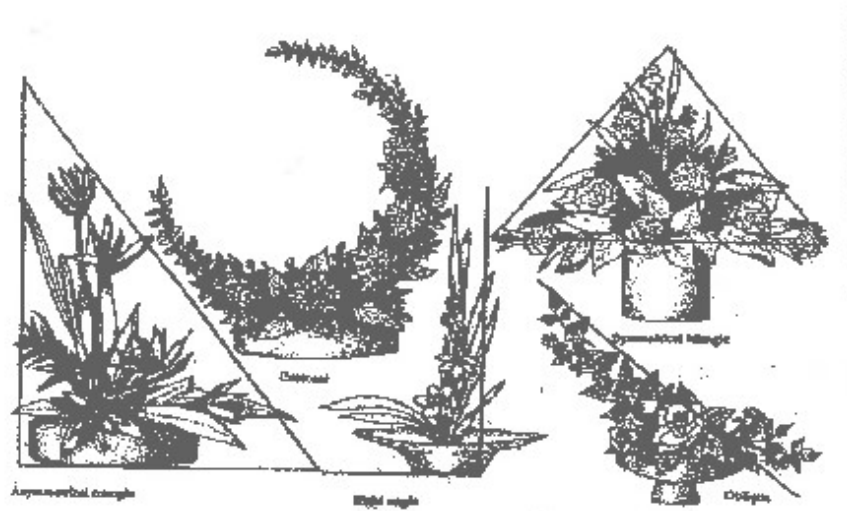

- The design should reflect the theme.
- The design should adhere to the specifications outlined in the show schedule.
- Accessories should compliment but not dominate the design.
- The main focus of the arrangement should be the dahlias.

Distinction 10 Points

Points to consider:

- The mechanics of the design should not be conspicuous.
- All parts should blend together to form a unified, harmonious design.
- Originality of design.
- Use of unusual materials or materials used in an unusual way.

Themes:

WEST COAST BLOOMING PARADISE

An interpretive design representing the ocean and beaches. Any classic item which a beachcomber may find on the beach may be included in the design, such as driftwood, and/or seashells, beach rocks or other accessories. These accessories should not be the focus or dominate the design.

THE STEEP TRAILS OF THE CASCADE RANGE

The Cascades run from British Columbia down through Oregon. It passes through and links the PNDC together. Create a vertical design between 16 and 20 inches tall and no more than 16 inches wide or 40 to 50 centimeters tall and no more than 40 centimeters wide.

All entries in this section must be made by the exhibitor in his or her own container. Dahlias must dominate in all arrangements which must fit within a 24" x 24" square space, unless otherwise specified.
